

Dear All,

1) This is my apology and sorry to the people who should make apology to me also

since I started to develop my own ICT tech business and its products, and simultaneously operated a small property renting business in the same place, as always being independently without the help from anyone else, and managing my flatmates according to the property flatting agreement, this makes my flatmates and the other people, e.g. my neighbours and the other external people **(I already mentioned about these people for many times before, so not repeating them here again)** unhappy, anger, embarrassing, feeling bad about themselves, so they have been conspiring together to make troubles to me and to my property, spread rumors around to defame me and my property, for their collective advantages.

To communicate with the society, the public, to disclose their conducts, behaviors towards me and my property, I made comments about them, with some expressive phrases, words to vividly describe their behaviors and conducts, in a funny, joking, humorous way **(the phrases and words are enclosed in double quotes)**, and this might make some of them even more embarrassing. I'm sorry and apologize if these expressions make them emotional.

2) I list the conducts, behaviors of these people, and the rumours spread about me by these people below, and I require these people to say sorry to me, to make an apology to me also. Thanks.

a) I was born and grew up in a very well educated family in Beijing, China, however some people **(among the above mentioned people)** have been conspiring together to spread rumors that I was from the countryside, from a poor family.

b) I have very good education in both China and in New Zealand, majoring in ICT technology engineering from the top universities in both countries, however these people spread rumors that I haven't had university education in both countries.

c) I have a very good professional career background in both China and in New Zealand, however these people spread rumors that I haven't worked in China, even haven't in New Zealand either, and I illegally immigrated to New Zealand.

d) I have been a very good independent student in both China and in New Zealand, however these people spread rumors to the public that I wasn't an independent good student at schools, while I copied assignments from my classmates.

e) My professional career background in China was the Electronics engineer, and was IT/Telco engineer in New Zealand, however these people spread rumors around that I'm not good at technology, while I'm from a farmer background, I was a salesperson when I was in China.

f) I have been a confident, competent and physically healthy and mentally tough individual, however these people spread rumors to the public that I'm not confident and unhealthy.

g) During the Covid-19 pandemic period, I have been in the 2nd to none isolation mode, have been keeping myself in great health condition, physically and mentally and have already done my 2 Covid-19 vaccination before 5th Oct., but these people have been spreading rumors to the public that I have virus, have flu, unhealthy, distressed and haven't done Covid-19 vaccination yet.

h) My mother passed away in Oct. 2015, however these people don't show empathy to me and my other family members, even worse they spread rumors around to insult me and my family members. These people are evil, insensitive and ruthless.

i) My property has been in very good condition, even in the very harsh windy rainstorm winter season, however these people conspired together to spread rumors around that my property was in poor quality condition, and had water leaking issues during the rainy winter season.

j) I have been independently working on my own for the tasks of developing my own ICT tech business and its products, for the home DIY handy-man tasks to maintain, improve and innovate my own property, however these people spread rumors that some of my flatmates, some of my neighbours and some other people had ever helped me with these tasks.

k) Whenever I do the garden work in my garden, prepare foods in my kitchen, do exercise in my garage, some of the neighbours close to my property can peek at me, monitor me. This is illegal harassment behavior. I have no interest in any of them, never have any interaction with them, however they spread rumors that I'm interested in them. They even consider it a harassment to them when I work in my own garden and do exercise in my own garage. They're nonsense, vexatious.

3) these people see me haven't been working for others for years, and have been relying on the money I owned by myself to support myself, to develop my own Tech business and its products, and pay the mortgage of my own property purchased at 2006, so they conspire together with my flatmates, with my neighbours, to make troubles to me and to my property, spread rumors to the public to defame me and my property, to destroy my reputation and the reputation of my property renting business. This has a very negative impact to my personal life, to my career and business development, their ultimate goal is to make me have financial loss, make me difficult to find a suitable job matching my background, and end up of have to sell out my property, so they can have the chance to get it at a low price they expect. This is organized crime. According to New Zealand legislation, this is criminal behavior. Please have a check with the New Zealand legislation to understand that their behavior is criminal behavior, as they conspire together to make organized crime for the goal of money.

I'm sorry and apologize to these people if they become emotional for my comments about their behavior and attitude towards me and my property, and I deserve their apology to me also.

(update –

a) I hardly drink alcohol at my own place, if not no-drinking at all, while I only drink some wine/beer when I participate in some Technology networking social events, however some of my neighbours close to my property spread rumors around that I drink a lot and am drunk. They're just nonsense, vexatious. I think they might drink a lot, and are very drunk

b) sometimes when I worked in my garden, some neighbours close to my property intended to approach me, but I ignored them, kept silent (*silence is a virtue, a very popular oriental ancient saying*), as their very poor attitude, behavior towards me and my property, so I don't want to deal with them. however they spread rumors that I was deaf, couldn't listen to their voices. I have a mental problem, not sensitive to voices. I think they're insensitive, their mind is very slow. This isn't my problem, while it is theirs

c) when I run outside or do exercise inside my garage, to release energy, to sweat, to keep me fit and healthy, to be relaxed, to make me from strength to strength, these neighbours spread rumors that I'm unhealthy, my body is cold, so I need to do exercise to warm up my body, they even say I take drugs (*as a New Zealand citizen living in New Zealand for nearly 25 years, I have almost never seen a doctor or gone to hospital, no need to say taking drugs or taking medication, as I have been in great health condition. Moreover I know that taking drugs or medication isn't a good approach to making people healthy and fit. However this doesn't mean I can't take medication, or am allergic to medication. When I was in my childhood, I was the*

same as most of the other Chinese children at that era, taking seasonal medication according to the doctors' prescription, the remained light yellow color on my teeth now is the effect of taking tetracycline medication when in my childhood), which is nonsense and vexatious. When I do the lawn in my garden, I always wear clothes covering all my body, even in the very hot summer season, as the very powerful side discharge lawn mower can blow away the grass debris into the air when cutting the lengthy grass. However, these neighbours spread rumors that my body is cold, so I need to wear clothes to cover all my body to keep me warm in the garden. Anyone has common sense medical knowledge can tell they're ignorant

d) In recent months I have been working on the tasks listed in my website cloudtelephony.win hosted in the computer server at my home office. The other websites smartracksolutions.com, smartracksolutions.info and traceboard.co.nz are hosted at the same computer server also. I alone built this online hosting and web systems within 2 months in 2010, and then hardly touched it at all until a few months ago, starting to upgrade everything around it, to improve it to a much more modern, advanced level. However, these neighbours spread rumors that they have ever helped me with these tasks ***(nonsense, they don't have this skills and competence, I don't need any help from anyone of them, and there is no need to explain this further)***, while I have been working on the home DIY tasks to improve my property to sell to them. They're nonsense, vexatious. My property has been in very good condition, and I don't need to and have no plan to work on it until I have done the tasks listed in my website cloudtelephony.win, and I have no plan to sell my property to anyone either)

Just FYI.

Best regards,
Qiubo Su
